

Abdelrhman Muhamed

Full-Stack Web & CrossPlatform Developer

talktoboda01@gmail.com — +201271175532 — 6th of October City, Giza, Egypt

[GitHub](#) — [LinkedIn](#) — [Portfolio](#)

Key Competencies

- **Programming Languages:** JavaScript,Dart, Node.js, TypeScript, C + +, PHP, Python, SQL, Bash,HTML5, CSS5,
- **Frame-Workes:** Flutter, Angular, REACT, Laravel, Express, Flask
- **Back-End:** Node.js, Express, Python Core, Django, PHP Native, NestJS, REST APIs, WebSockets
- **Databases:** MongoDB, MySQL
- **Version Control:** Git, GitHub
- **Security:** OAuth, JWT, OWASP, eWAPT, eJPT
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Self-learning
- **Languages:** Arabic (Native), English (Fluent), German (Intermediate)

Projects

E-commerce Flutter App (Cross-Platform Mobile Application)

Tech Stack: Frontend: Flutter , Dart , Provider, HTTP API, SharedPreferences, CachedNetworkImage, Intl.
Backend: Node.js, Express.js, JWT, OAuth 2.0, REST APIs. Database: MongoDB (Atlas). Tools: Docker, Postman, Git, GitHub (for deployment hosting APK). Deployment: Dockerized backend, GitHub for APK hosting, MongoDB Atlas as cloud DB

[Demo](#) [Download APK](#)

Social Media App

Tech Stack: Angular, Angular 20+, Node.js in TS, Express.js,WebSockets, MongoDB (Mongoose), JWT, Google OAuth2.0

[Live Demo](#)

E-Commerce Web App

Tech Stack: Angular, Angular Material, GSAP, Node.js, Express.js, MongoDB (Mongoose), JWT, Google OAuth2.0

Courses & Certifications

- **MEAN-Stack and Full-Web Application Developer** –[National-Telecommunication-Institute](#)
- **WebSocket Communications with Node and Angular** –[LinkedIn Learning](#)
- **CompTiA Networks** –[Networks Fundamentals](#)
- **Implementation of Computer Network Fundamentals** –[Networks](#)
- **python programming** –[PythonCore](#) - Elzero - LinkedIn Learning
- **Red Hat System Administration I** –[Linux-Bash scripting](#)
- **Web-Security Ethical Hacking** –[E-JPT](#)
- **React** – Dave Gray, LinkedIn Learning (Self)
- **Git & GitHub** – Version control, workflows (Self)
- **Linux & Bash Scripting** – Automation and scripting tasks (Self)
- **PHP (Native) & MySQL** – Full-stack app development (Self)
- **Web Development** – HTML, CSS, JavaScript fundamentals (Self)
- **C++ Programming Fundamentals** – Algorithmic problem-solving (Self)
- **PortSwigger Labs** – Web security and exploitation (Self)

Education

[NTI - National Telecommunication Institute](#)

- MEAN-Stack and Full-Web Application Developer
- Graduated: Jan 2025
